Soldering Iron Tip **Cleaning-Tinning block.**

Maintain and keep Any
Soldering Iron Tip
in 100% Condition

Clean and re-tin the tip of your soldering iron after each use. Carefully swipe both sides of the hot tip across the surface of the Cleaning-Tinning block.

A soldering iron tip is very hot and may produce a small amount of smoke/fumes.

Apply hot soldering iron to block until tip is cleaned, add small amount of solder to tin tip of iron. It also improves your iron's performance by helping the solder flow off the tip more smoothly. Rub the hot iron tip on the block to keep it clean and evenly tinned.

And vala you will have Fully Rejuvenated Soldering Tip that will solder properly.

All procedure is very simple and will take couple of seconds. Once you try it yourself than you will appreciate and make it your routine to use Cleaning-Tinning block !

Cleaning-Tinning blocks !

Guaranteed to Keep Your Soldering Tip in a 100% Soldering Condition !
