Interference TVI

Filter!
 This interference filter for professional quality picture (Master) your TV screen of source picking up signals from the VHF or UHF transmitter or You are causing the interference from your home and interfering with your own and neighbor TV's.

Do not Fear
 There is a simple solution to the Filter! and Your and neighbor's problems are gone and you will be able to watch the TV interference free. You might have to see more than one of the filters according to your TV installation and strength of the interfering signal.

Examples
 Interference signal disappears with one filter
 VHF 1A (12.5MHz) → 30dB
 UHF 43 (200 MHz) → 20dB

Observation can make the filter for just about any interfering frequency with 20 to 30dB attenuation.

Get the solution with Batos Antenna
